

## Front end developer

You will be part of our international team developing our process-management software, a Java/Java EE application. Working closely together with our project managers and the QA team, you will be supporting the agile development life cycle by designing, implementing and testing our software. The position is based in Munich.

### Requirements

- ▶ Expert in web based front end development using reactjs/redux, JavaScript
- ▶ Knowledge of relevant web technologies and frameworks (HTML, JavaScript (jQuery), CSS)
- ▶ Experience with SQL
- ▶ Good English skills (daily communication both verbal and written)

### Preferred Qualifications (optional)

- ▶ Experience in JAVA programming
- ▶ Degree in Computer Science or a closely related field
- ▶ Spring Framework (Core, Web MVC)
- ▶ JPA - Hibernate
- ▶ Mobile development / Apache Cordova

### What we offer

- ▶ International team with flat hierarchy in a dynamic and friendly environment
- ▶ Competitive salary, prospect for personal development in a growing company and environment
- ▶ Working with diverse technologies and challenging tasks for versatile minds
- ▶ Opportunities to be creative and have an impact on the way we are developing

### About our company

We are a software development company for supply chain solutions, headquartered in Munich / Germany. As innovative provider of BPM (Business Process Management) and LES (Logistics Execution Systems) solutions we are leading the market in the industrial yard management solutions. We deploy highly automated and state of the art software technology (i.e. smartphone apps, biometrics, RFID Auto-ID solutions, etc.), creating value for our blue chip customers such as Henkel, Bayer, BASF, Wacker and many more.

We strive for quality, progress and sustainability and are looking for like-minded people to join our team. Become a part of our success story!

Have we awakened your interest? If so please send your CV and documents to [recruiting@star-trac.com](mailto:recruiting@star-trac.com)  
We are looking forward to hearing from you.
